UNFOLD TO START

How to play

NOMBRE PROVISIONAL

Ways to play

Whoever makes the deck knows the dates. These variants make that part of the game.

Memory Keeper

3–8

The deck maker doesn't compete. They present each card, rule on "Tell it", give the wild-card clues and tell the story when it's flipped. Perfect for a gift: the game is the present.

Our story

2+, AS A TEAM

One memory line for the whole group and 3 lives. Take turns placing and talk it over. The deck maker doesn't place cards: they can only say "earlier" or "later" once per card. Goal: 15 cards on the line, then beat your record.

Classic

2–6

The rules above. If the deck maker plays, they start with one extra card.

Handicap duel

2

For two. The deck maker starts with 6 cards and doesn't use wild cards; the other player starts with 4 and can ask for a one-word clue each turn.

Generations

4+, IN TEAMS

For families. Make teams that mix ages: older players know the old dates and younger ones the recent ones. Teams take turns and can talk it over.

Tip: play the first game as Memory Keeper. The second, everyone against the deck.

1 What's in the box

The cards with your photos, a cover card, the wild cards and blank cards (if you chose them) and this leaflet.

Setup

Shuffle and deal 4 cards to each player (3 if there are more than 5 of you), photo side up, without looking at the date. Place one card in the middle, date side up: it starts the memory line.

2 On your turn

Pick a card from your hand and place it on the memory line: before, after or between two cards. Flip it. If the date fits, it stays. If not, discard it and draw another.

← EARLIER? LATER? →

3 Year-only and month dates

A card with just the gear fits anywhere in that gear. One with month and gear fits on any day of that month.

4 Who wins

The first player to run out of cards. If several finish in the same round, play one more round with one card each.

Corner icons

Starr memory: place it correctly and you play again.

Tell it: before flipping it, tell the memory. If you miss but the group likes the story, you don't draw a card.

Wild card: at the start of the second round, whoever has the most cards takes one. Use it to ask for a clue or swap a card.

Blank cards: when a memory comes up that wasn't in the deck, write it down with its date and it joins the next game.

NOMBRE PROVISIONAL

When was it?

A deck to put your memories in order.
